

ANOTHER BOUNDARY !

Roy Gault

Sounds a bit like a police enquiry, but a number of leads are being followed as a result of the first 'Six of the Best' which appeared in Bulletin 275. However, nothing definite has been unearthed that I can report back but thanks to those who responded to the challenge. This time all six are new dies, half of which are 'Full Names' which might point to their user, and a fourth involves a shield, presumably a company logo.

Catalogued as a 'J'

Can anyone suggest
anything better?

J7635.01

As before, I would be pleased to hear from anyone who can shed any light on any of these, or possibly come up with alternative suggestions for the unusual 'P' and reversed 'J'.
